

**TRACK NAME**

Building Green with Concrete – Smart Homes Alliance

SESSION NAME

Building Green with ICF

DATE + TIME + ROOM NUMBER

Friday September 5th – 2:00pm – Room 105A

SESSION DESCRIPTION

Insulated Concrete Forms (ICF) is one of the fastest growing alternative building products in the building industry today. They offer energy efficiency, structural integrity, integrated fire resistance, sustainability and many other benefits. There are dozens of manufacturers & types - how do you decide which system is right for you? This presentation is designed to help builders, contractors and consumers decide which ICF block system is best for their project. We will review different types of blocks, municipality requirements, code compliance, installation, energy efficiency & return on investment (ROI). We will also review the proper steps in engineering, designing and converting existing plans to ICF. Lastly, this presentation will offer a Q&A with other ICF industry experts. This one hour presentation will educate you on how to incorporate an ICF wall system into your next project.

PRESENTER(S)

Robert Klob – Principal at Robert Klob Designs, Inc.

PRESENTER BIOGRAPHY (S)

Robert Klob has over 25 years experience and is currently President of Robert Klob Designs, Inc. Robert Klob Designs is a full services residential design firm specializing in Energy Efficient, Custom Homes, Production Homes, Remodels and Additions. Robert Klob and his staff are certified designers & installers for several ICF systems and are considered leaders in the ICF industry.
