

**TRACK NAME**

Green Building in the Desert - USGBC

SESSION NAME

Cost and Benefits of Solar Electric Systems in Commercial and Institutional Buildings

DATE + TIME + ROOM NUMBER

Saturday Sept 6th – 2:00pm – 102B

SESSION DESCRIPTION

Attendees will learn about the costs and benefits of installing solar electric systems in green building projects. The course will explain different options for incorporating the equipment in the project and show photos. Other buying considerations such as roof implications will also be addressed

PRESENTER(S)

Mark Holohan – Code Electric

PRESENTER BIOGRAPHY(S)

Mark Holohan is a 30 year energy industry veteran and president of Code Electric, the premier solar integrator in Arizona. Mr. Holohan worked for two solar manufacturers before acquiring one of the top 25 local electrical contractors in 2005. His company recently installed a large photovoltaic system on the Phoenix Convention Center and completed the largest off-grid system operating in Arizona.
