

**TRACK NAME**

Corporate Sustainability Strategies – Net Impact

SESSION NAME

Green Design Changes Everything – Sustainable Packaging

DATE + TIME + ROOM NUMBER

Friday September 5th – 3:00pm – 105B

SESSION DESCRIPTION

Prior to concerns about energy supply and climate change, packaging design and material choices were fundamentally about cost and putting some effort around diverting packaging waste into the recycle stream. But now all of that is about to change.

PRESENTOR(s)

Nancy Geisler – VP of Sustainability at Unisource Worldwide

PRESENTOR BIOGRAPHY(s)

Nancy is the Vice President of Sustainability with Unisource Worldwide, Inc., the leading North American distributor of packaging materials, fine paper for printing and cleaning supplies. She is the developer of Unisource's green cleaning and sustainable packaging programs and Unisource's internal stewardship program that ensures the greenest possible supply chain for the customer and business transformation solutions around office functions for the welfare of the environment, our valued customer and our dedicated team members.
