

**TRACK NAME**

Guide to Greening A Business – Local First Arizona

**SESSION NAME**

Introduction to Digital Lighting Controls and Adaptive Lighting Solutions

**DATE + TIME + ROOM NUMBER**

Friday September 5<sup>th</sup> – 3:00pm – 103A

**SESSION DESCRIPTION**

This session will review current lighting best practices and regulatory issues. The majority of the presentation will be spent discussing the next generation of green lighting known as digital, adaptive lighting. The discussion will cover both considerations for new buildings and existing buildings (retrofits). Topics include lighting/BMS integration, daylight harvesting, high end lighting trim management and advanced occupancy sensing strategies.
